## LEADERS MESSAGE:

Western States are Hot, Hot, Hot not only by sun but by 1,400 fires that are going on here in California. Some like it Hot.. Wrong....Not.. But what are we to do.. Keep on Painting..

Been Crazy. But good. 4 fairs going on, 2 local art Shows and Now Eva Williams and I are in A Gallery.. So fun and what a great experience.

35 artist are co-oping the gallery called ALOFT in Sonora California.

Just setting up.. We have a 5 foot spot 10 feet high..

So Eva got the task of the talllll ladder.

We already have had our day taking care of the Gallery and se painted and talked to the public as they showed up.

What a beautiful Place... hundreds of art work including Sculptures and Photos are there.and color is all around.. The building is lighted and lots of windows... I was so inspired to paint.

Look in your are for a co-op.. A great start.. And Congratulations to all of you who already have this experience.. Keep Painting. **Carol Earle**
